You want to upload some hands to BBO.

You already have the deal or deals as a lin file

If you don't please look on the last page and see [Enter \(Type\) Hands into aaBridge – a How to](#)

You can upload the lin file to a folder on BBO in the normal way.

First login to BBO, go to Hands and Results and create a folder Folder.

My BBO > Hands and Results > (blue button) Create new folder

For this example of lin file called **some_deals.lin** I would make a BBO folder called **some_deals**

Click the (blue button) **Import LIN file** (a dialog will appear)

Click the **Select** button for the folder you want to fill.

Click the (white) **Choose file** button and select the .lin where ever it is on your computer. (not shown)

Click the (white) **Import** button

and you should see that all your deals (games) have been accepted by BBO.

On BBO you can use the uploaded files on a Teaching or Bidding table

To do this the table boss clicks the **Deal source** (blue button) near the center and then clicks **Use saved deals** and selects the folder they want to read the deals from.

Or the table boss can **put a single deal on a Teaching or Bidding table** by via

My BBO > Hands and Results

Click a folders **Show** (blue) button

Click a deals **Show** (blue) button

Click **Export deal** (blue button) near bottom of that panel

Click (menu item) Upload deal to table
